☐ Additional information attached.**SECTION 5 — ACCIDENT DETAILS DESCRIPTION**☒ Autonomous Mode ☐ Conventional Mode

"A Cruise autonomous vehicle ("Cruise AV"), operating in autonomous mode, was involved in a collision while traveling northeast in the middle lane on Folsom Street at the intersection with 11th Street. While passing through the intersection at 11th Street, the Cruise AV followed the lane markings, which shift to the left as the road transitions to a one-way street starting east of 11th Street. All lanes on Folsom Street shift left at that intersection and are clearly marked. A Toyota Camry traveling behind and to the left of the Cruise AV, and gaining on the Cruise AV, did not shift left with its lane and instead crossed over its lane boundary and lightly swiped the side of the Cruise AV. The operator of the Cruise AV disengaged from autonomous mode just prior to the impact. There were no injuries and the police were not called."
